| Flame retardant          | Bs1 d0   |

# AkyVer® Sign

Give your projects visibility!

## Advantages

When it comes to signage and advertising, **AkyVer® Sign** is the first choice. Designed for a wide range of applications, these versatile signs excel in both indoor and outdoor environments.

Their robust multiwall polycarbonate structure ensures exceptional durability and longevity, even in the harshest weather conditions, and they are co-extrusion treated for superior UV resistance. Their diffusing white colour is ideal for applications requiring backlighting.
